

EASB INTERNATIONAL PLAYERS FUND

At the start of the 2015/16 season, some EASB events saw a proportion of the prize fund allocated to an International Players Fund, to try and assist with the costs for players who do well in our events and are selected to play for England.

Funds are allocated from individual events to competitions relevant to the qualification from that Tour, ie Premier Tour funds would go towards World Under 21, Amateur Tour to the World Amateur Championships, etc.

During the first season, funds were only taken from the English Ranking Series. Last season that was increased to include the Premier Junior Tour, and from the 2017/18 season, we are doing the same from the Masters Tour.

All of the funds that have been removed from the prize funds have been advertised on the Players Letters prior to events, but in order to promote transparency, we will also be advertising how these funds are allocated and to whom.

The link below gives you an up to date list of how the International Fund is made up, and how it has been apportioned so far.
